# PotterStitch

In 2020 Potterswork teamed up with artist Willemien de Villiers to create the PotterStitch ceramics collection. Inspired by Willemien's contemporary interpretation of vintage embroidery, the range features intricate detailing across the three stories: Crazy Cross-Stitch, Black-and-white Stitch and Sampler Stitch.

Please enjoy browsing through this special range of exquisite ceramics. If you have any queries you can get in touch with us on info@potterswork.co.za or connect with us on Instagram and Facebook.

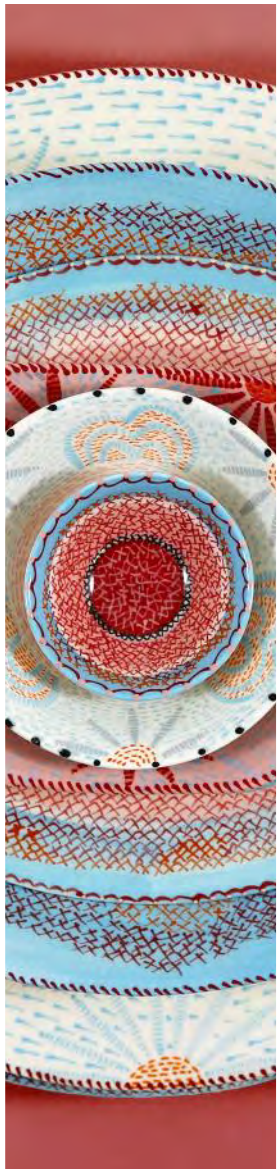
## Ordering your ceramics

- As our ceramics are all hand-made and hand-painted, slight variations in size, weight and colour may occur - **please use the dimensions as a guide only.**
- Our production timeline is 6-8 weeks during off-peak season (March to August) and up to 12 weeks during peak season (September to February), so please take this into consideration when placing an order – especially a large one.
- Please indicate what base colours and styles you would like to ensure you receive a product that matches your expectations.
- For stockists the minimum wholesale order amount is R8,000.00 ex-VAT & ex-Works. Orders less than this will be charged retail prices.
- All orders and specifications can be sent to info@potterswork.co.za

## Customising your ceramics

- All our pieces feature the signature of the artist on the bottom. We are happy to attach your company logo alongside the artist's mark – cost of the decals and artwork setup will be for your account.
- All orders are painted at an additional 20% to account for rejects. Please note that we expect you to purchase all additional stock if it is marked with your logo. If you prefer not to, please expect some delays in the production time as we may have to recast/repaint faulty items until the correct quantity is achieved.



## Shipping your ceramics

- We use recycled paper, newspaper and boxes in our packaging, and items are securely wrapped in bubblewrap. Due to the amount of packaging we use to ensure the fragile goods remain safe throughout their travels we charge a small fee per box, which is indicated on the invoice. If you have any special requirements for packaging, let us know and we will try to accommodate them, although this may incur a further fee.
- If you would like to consolidate the shipping of your order with that of one or more suppliers in Cape Town, please let us know.
- If you are aware of any specific import requirements for your territory, please make us aware when ordering.

## Paying for your ceramics

- Payment is due on completion of order, however bespoke items and designs require a 40% deposit as we might not be able to re-sell the items if you have a change of mind.
- While orders outside of South Africa are not charged tax (VAT), we do charge a small flat-rate fee for the conversion of foreign currency into South African Rands. This will be indicated on your invoice.

***T&C:*** *All designs and patterns remain the intellectual property of Potterswork unless a licensing agreement has been reached. We reserve the right to post images of orders and patterns on social media in order to showcase the skills of our artists and the diversity of our products. We are happy to tag your company on social media if you are comfortable with it.*
